Judge

Robert D. Drain

Your Honor:

How can Delphi direct
our ownership of our stock
when this stock was
originally Saginaw Steering
Gear stock (Division of General
Motors)?

I am one of the employees
who invested their earnings
to build these plants overseas
long before Delphi was created

This stock was in our
hands and not in General
Motors hands - before Delphi
came into existence

Delphi didn't go bankrupt
overseas - only in this country

So we this so called
vote is a fraud. The company
probably hasn't told you about
cases like ours

Thus we haven't and will
not vote for or against it

Whether it is Delpir, the
Government - General Motors
or Government affiliates I
don't know, But we will put
our trust in you - We still
have ownership rights in plants overseas.

Sincerely

Robert C. Schmidt

Darla J. Schmidt

Stock # DPH 92169
Shares 1255

Tel No. 352 596 4908

Dear Sir:

On to whom it may concern

Pardon my writing which is very hard for me to do. For about ten years after my stroke I could hardly write my name.

In 1967 I was talked into buying into the Stock Saving plan for retiring or disability at Saginaw Steering Gear.

Division of General Motors Corp.

At this time Saginaw Steering Gear was the most profitable Division of General Motors.

I worked there as a Electrician, Technician Engineer and Supervisor of all the different skilled tradesmen.

In 1981 I came down with pneumonia which wouldn't clear up. The doctor then sent me to The Mayo Clinic in Minnesota thinking I might have lung cancer.

which I didn't, but my health kept getting worse. So the doctors then suggested I go to The Medical Clinic in Ann Arbor - Mo. or The Cleveland Clinic (which for me was too far away.)

Two days before my appointment at The Medical center where I had the stroke the doctor at Sterling Gear said I was able to return to work.

I was half paralyzed and have been through hell since.

We had a family of ten children (one deceased)

Three of which were still in school

My wife Dora had to quit work to take care of me.

(Ann Arbor doctors told her that I would live about 18 months)

Sterling Gear personnel called me in to put me on retirement and all I got was less. Every amount was

different. Then the last time I was there (shortly after the 1st time on retiring) We were promised Blue Cross - Blue Shield coverage for the rest of our lives by Randy Robertson the head of Personnel at the Division.

Then they wanted me to sign off my wife's vested pension rights (which I refused to do.)

Companies were legally doing this back then. They got very upset when I wouldn't comply.

Then they asked me what to do with the stock.

Being I had been lied to so much I told them to send it to me.

To me this investment is still my personal pension.

It was our commitment to build the plants overseas before Dalphi was created.

The doctors at this time told us to get out of the

cold because it was still
having fluid on the lungs and
susceptable to Pneumonia. We
didn't have any place to go,
but when my retired brother
in Florida heard about it, He
asked us to come down and
live with them. Which we
did.

A couple of years later we
bought a cheap home and have
been living off the little
social security little pension
Ch, and my wife ~~on~~ social
security - which wouldn't even
pay for renting a room.

Thanks for sending the
line, - But we ~~don't~~ can't
afford Computers, Cell phones
Cable or satellite T.V. or any
of the modern electronic
devices.

You have no idea of our
medical bills. My wife is
to. (But don't want to be
called disabled)

I've already have had four
heart surgeries - and what's
ahead I don't know.

Many thanks to my
children and friends for all
they have done for me and
went without things other
children had to help me
out and to whom I owe
so much.

Personally I am sure
its the Federal Government
came up with this scheme
for Delphi (they could
possibly be involved) to
bilk people out of their
rightful assets.

(As a matter of fact
I stopped at a Social
Security Office and we
discussed the problems we
had - then as we were
leaving he followed us
out to the car and told
us we might be a

test case — I put the word might in because that is what my wife said he said. I thought he said that we were a test case.

I am sure our phone has been bugged and I get calls from someplace S.L.C. - IRS ? when I am going to be Billed

Now I am wondering how they come up with one share of new Delphi stock for ~~the old~~ 1218 of the old Delphi stock

They couldn't make it one share of the new Delphi stock for 1255 of the old Delphi stock which is the amount we own

I've even written to the Social Security Office in Chicago for an abatement of my income which is a lie. Of course they won't answer me.

To me this whole scheme
is fraud whether its corporation
government, government entities
(States, Cities, Universities or agencies)
person programs or such.

And I know I don't
have the power to stop them

stealing is stealing

if some stockholders were
not allowed to buy preferred
stock ^{??} especially on the
plants their investment before
Delphi was created, ^{??}

I could go on and on about
them, but must close

Thank You
Sincerely Yours

Celvin L. Schmidt

/ Darla J. Schmidt

We will leave it in the hands of the judge.
